STATEMENT

Re: Permanent Closure of X2 at Six Flags Magic Mountain

STATEMENT OF GARY A. DORDICK ON THE PERMANENT CLOSURE OF SIX FLAGS MAGIC MOUNTAIN'S X2

Owner of Dordick Law Corporation, Lead Attorney for riders who suffered injuries on X2

BEVERLY HILLS, Calif. Today Six Flags Magic Mountain finally did what it should have done long ago. X2 is closed for good.

For our clients, this decision comes too late. They got on X2 expecting a thrill. Instead they left with catastrophic brain injuries. Some needed emergency brain surgery. Some are still fighting to get their lives back.

Hundreds of people have contacted our firm about injuries they believe were caused by X2. Closing the ride protects future guests, and we welcome that. But it does nothing for the people who have already been hurt. Six Flags must now take responsibility for them.

We will keep fighting for every rider who was injured on X2. We will hold Six Flags accountable. Today's decision will not keep us from continuing with our lawsuits.

To anyone who rode X2 and has had headaches, memory problems, dizziness or other symptoms since: please get medical care, and call us.
